

Rock n Roll Shows

What better way to start your night than to arrive in a big block 1957 Chevy well known as The Wanderer.

Let the rumble of the 454 big block engine alert the other Rockers that you have arrived and are ready to jive the night away!

Feel free to bring along any of your own rock n roll cds. We have plenty of rock n roll cds but it's always nice to listen to your favourite oldies but goodies to get you going before the party.

Rock the night away…

let us take you back to the good ol’ days
